Our facility is based in the heart of Poland, a country famed for its carpenters. # The Kitchen Industry's Best Kept Secret

Having worked with many partners for over 35 years is testament to our quality but by the very nature of being a discreet toll manufacturer we can't ask our partners to shout about the benefits of partnering with us, so we've asked some of our team to do it instead!

Having worked with Dller for over 30 years I have been able to build an exceptional reputation as a Luxury Kitchen brand in the UK. As a small family business working with Dller is ideal, I focus on design and customers whilst they take care of manufacturing, what an ideal partnership.

### **John, Denmark**

For over a decade Dller has been our partner in high end kitchens, as a small business with 3 showrooms thanks to Dller we are able to offer a wider range of designs.

### **Claudia, Germany**

As interior designers to the most demanding high end clients, unique design, fine detail and high end specifications are essential, without Dller we wouldn't be able to achieve the growth and reputation we've attained in the last 5 years.
